I can not speak high enough about Megan Mobley, Stella and the team here!! I started coming here a year ago with crazy nerves and fear of going to the dentist! They have been so amazing not only in shaking those nerves, but always doing an amazing job on my smile! I also love LOVE that the sonic care toothbrush came with my visit as well as teeth whitening gel every time I visit! They give you all the tools and advice to keep your smile great and healthy!

I realize I'm one of those rare people that actually enjoys going to the dentist. I've been a patient of Dr. Mobley (and Stella the best D.A. ever!) and her awesome team for several years now and I cannot tell you enough about how wonderful they are. Incredibly friendly, calming chair side manner and first-rate service from the minute you walk in the door. I hope they bring back the fresh-baked-cookies-as-a-parting-gift once we are truly beyond the pandemic!

I had been a patient of Dr. Mathews and was told he retired but that Dr. Mobley was really excellent so I decided to give her a try. She is great. I went in to have a filling redone and she did an excellent job. I really like her a lot and will go back for any work I need done in the future. I also had a general teeth cleaning with Estella and she was also very nice and did a great job. It all went so smoothly and quickly. Michelle and Ingrid, the front desk staff, were also very nice and professional. A great team altogether. Thank you

I am SO glad I found this practice. By far the best dental office in Austin. My first visit was earlier this week and I'm actually excited for my next appointment. Luckily, I am not one prone to dental anxiety, but it is very clear that Dr. Mobley has taken strategic steps to make even the biggest dentist "scaredy cat" feel right at home from the moment you walk in. The office décor and vibe was clean and welcoming. They are taking all the necessary COVID precautions (no one in the lobby, temperature taken, plexiglass at the front desk, less patient overlap, etc). The front desk staff, Michelle and Ingra, were friendly and quick to get me checked in. The assistant, Peyton, was great. She was kind, knowledgeable, and seemed genuinely interested in getting to know me. Dr. Mobley had a superb chair-side manner. The tools / technology seemed top of the line. After my exam, she laid out the facts and let me decide on the next steps. Her office runs like a well-oiled machine, but I didn't feel rushed at all. Dr. Mobley patiently took the time to answer all of my questions thoroughly. I truly felt like my happiness and best interest were her top priority. After my exam, I had my teeth cleaned by Stella, the hygienist. She was gentle, detail-oriented, and had a real positive energy. If you're looking for a dentist in Austin, I cannot recommend this practice enough. Dr. Mobley and her team provide an incredible patient experience!

I LOVE THIS DENTIST!! Dr. Mobley is absolutely amazing. I followed her from her former dental office because of how well she takes care of her patients. I used to be scared to go to the dentist, but Dr. Mobley had alleviated those fears! My teeth have never looked better! Every single person that works at this dental office is so nice, helpful, and professional, especially Ashley, who works the front desk.

The experience was great from beginning to end. The front staff was informative and helpful and always friendly. Dr. Mobley took the time to speak with me before my first appointment and both her and the assistants were thorough and friendly. Make the appointment!

It's always nerve racking to see a dentist, especially when theres very few good ones nowadays, but thanks to the wonderful employees, I felt welcomed, appreciated & now have a dental family I can trust! Please check them out for any of your dental needs!! The service was amazing & cannot wait for my next visit!!

I enjoyed my experience at Dr. Mobley's office immensely! April at the front desk is so pleasant and informative, she always helps me schedule appointments efficiently. All of the dental staff are knowledgeable and helpful in making sure I understand what they are doing and why they are doing it. I love this dentist! Plus, free whitening for life is a nice perk. (:

Dr. Mobley is incredibly engaged and takes the time to sit down and checkin on your priorities/questions right upon arrival. I honestly have never had this much conversation or face-time with a dentist in the past and it was incredibly reassuring given my dental health is in her hands. I never felt rushed and she took the time to address every question, concern, and area of interest.

And the rest of the staff is incredibly friendly and helpful to boot - really happy I found them!

Just moved to the area from out of state and was looking for a new dentist.

Decided to give this practice a try due to the positive reviews.

So happy with my decision, not only is the staff extremely thorough and informative, but they do an excellent job and are gentle on your teeth. They listened to concerns that I had been having for years that other dentists said were nothing and was able to provide me with info and help on my first visit!

I've been telling EVERYONE about them and I hope to see them grow.

The service you get for the value is excellent. They also included free custom whitening trays. They understand that your teeth are so important and that a great smile is the best advertisement for their business. Seriously will NEVER go to a different practice.

So pleased with the entire experience. Dr Mobley and her staff were professional, helpful and honest with me. One general question I like to ask my doctors are, what would you tell your mother? Without me even asking twice during her explanation she said, "I'd tell my mother this." I knew then I had found the right dentist for me. From my initial phone call throughout my appointment today I felt I was in the right place.

This is the first dentists office that I have been to in central Texas in which you do not feel like a cattle call. The office is pristine, clean and the staff is amazing. Very friendly, helpful, and accommodating. The Dr. was professional and fun. I can't recommend this place enough!
